## Flexible Modular Design and Dual Display Support

A wide variety of modules can be connected for different applications including RFID reader, MSR, fingerprint reader, IC card reader, and mini-PCI-E slot.

## Powerful Processor

Utilizing high-power CPU the system has the power necessary to support processor intensive applications and operating systems.

## Convenient Wall Mount and Wide Tilt Angle

A compact form ensures that the SP-1030 uses the minimum counter space. It's wide tilt angle (0-90 degrees) and industry standard VESA mount offers highly flexible mounting options.

## Dual Cash Drawer Support

The SP-1030 supports dual cash drawers. This feature allows two cashiers to share one POS terminal for low total cost of ownership, while maintaining dedicated cash drawers for loss control.

## Engineered for Reliability

The hard-drive is specialty mounted away from the touch screen protecting it from vibration. For further reliability unit can be configured with a SSD.
